

ABOUT

We are a UK, design-led manufacturer of high-quality, aluminium based systems, used by architects, designers and businesses to create office, meeting and collaborative environments, with a focus on privacy, versatility and scalability. With combine high level design capabilities and advanced manufacturing skills to deliver our unique system across a wide variety of business and retail applications.

QBISM is a movement. *A subtle start.*

QBISM can be colorized. *A huge choice of textures & fabrics.*

QBISM has form. *The movement begins to flow.*

QBISM has shape. *Following the twists & turns of your space.*

QBISM is more than just a product. *Sculpted to suit your requirements.*

Our straightforward, intelligent and collaborative approach continues to challenge the convention within our industry, with a continued programme of new product design and materials innovation.
