

Solar

Modern workspaces are a combination of individual working and collaborative spaces yet they both have the same requirement - privacy. Whether it's a private meeting or a concentration space, the qb Solar range is adaptable enough to meet those requirements.

The system comprises of a combination of straight screens and shaped sections that let the product flow with the natural environment. The range has been designed from the floor up with the latest in acoustic performance materials built into the product. The qb Solar range offers the best acoustic performance of any similar product and is adaptable to any space with the unique shapes within the range.

Cloud Working

With the development of cloud computing we can now use SOLAR to work anywhere and at anytime in a collaborative environment.

Above:
A dual meeting space upholstered in Kvadrat Maharam Agency. Please note that when specifying patterned or striped fabric please contact us for suitability.

Meeting Space

A meeting of more than one person for a period of 30 minutes or more.

FOLD HERE

Mobility Access

An open entrance to allow wheelchair access into the booth

Collaborative Space

A meeting of more than one person for a period of less than 30 minutes

Communication Space

Be it landline or mobile communication, SOLAR provides a private space to talk and make that next big deal.

Munching Space

A booth for a quick nibble by yourself or brunch with co-workers when discussing the next big idea.

FOLD HERE

Office Space

A place to get to work and be your most innovative when privacy is the key to performance.

Solar Booths

Comparing the qb Solar range to other collaborative screen systems available is like comparing chalk and cheese, there is no comparison.

That's partly because the system is so unique as it can be adapted into so many different forms that to compare it would just not do it justice.

The amount of options available to you to change depending upon your needs is huge, we can provide you with that. The system can curve and shape your collaborative space or make private breakout spaces in the busiest of offices. Take a look at our qb Solar system of products to enhance your space and improve your footprint efficiency. Surely there's something it can do that enhances your space and makes it more productive?

Solar

Modular construction lets you get creative with shapes and functions within the qb Solar range. The numerous features of qb Solar allows it to adapt to activities and tasks within the workspace, providing true activity based working.

The individual components connect together with mechanical linking, providing strength and stability un-rivalled by it's competitors. The stabilising feet and brackets also in the range lets you place worksurfaces and tabletops throughout the range to make the system fully adaptable for what you need it to achieve in your environment.

Clockwise from top left

1) 3 way link:

For linking in three directions, 90° to each other

2) 4 way link:

For linking in four directions, 90° to each other

3) curved end screen:

Adding a curved end screen

4) 120° link screen:

Connecting screens, 120° to each other

5) 90° link screen:

Connecting screens, 90° to each other

Note: can be upholstered with two different colours

Zone Out

If you need a relaxing space to chill out and get away from it all within a busy space check out SOLAR personal booths.

Pinnable Screens

Not only does qb Solar form unique activity based working booths but also comes as floor standing screens that compliment any office space that requires optimal privacy.

Team Spaces

Where you can work in isolation but still hold important conversations within a team environment.

Exam Space

Where privacy and discretion is absolutely paramount, qb SOLAR provides the answer.
