

QBISM_

THE ART OF
WORKING SPACE

Seating for Meeting

THE MEET SERIES

QBISM_

A NEW MOVEMENT IN FURNITURE DESIGN

Make it quiet, make it comfortable, make it private, make it visual,
make it soft, make it functional.

QB MEET reconfigures your perspective, challenges convention and
gives you a multitude of viewpoints for how you work, meet and
collaborate.

Just like the 20th-century avant-garde art movement, QBISM plays
with aesthetics and thanks to its unique aluminium framework,
revolutionises and adapts to the way you use your workspace.

QBISM

A SHIFT IN PERSPECTIVE

The possibilities are endless in the world of QBISM

One system with many outcomes, formed around a peerless aluminium framework surrounded by the highest quality and finish.

Curve it, shape it, make it private or collaborative. Configure and reconfigure to suit any environment and to enhance any space, minimising your footprint at the same time. It's a winning solution, whichever way you look at it.

QBISM

MAKE A STATEMENT

Get what you want and have it all your way.

Choose from fabrics, laminates and acrylics for sofa units that are made for you and your business. We prefer to let you choose but we're on hand to provide the right advice and steer you in the right direction. In high use areas, for example, a fabric with high wool content will make a hardwearing seat that won't deteriorate over time. Whilst going for something more tactile will introduce fun and creativity to boost productivity. The system can change and adapt to your style, creating desire through design, and making a statement without overstating your case.

QBISM

THE BEST SEAT IN THE HOUSE

*The QB MEET System is more than just
somewhere to sit.*

It can connect and refresh a lifeless interior, invigorating the space and the people inside it. The system can bring power, data and communications direct to the workforce in the most dramatic way. Recess mounted TV's can be used as presentation tools and the latest technology, such as induction charging, can be safely integrated to remove the need for cables. Connect your workforce on the ground and across the globe, making it easier to collaborate and communicate.

A QB MEET USM UNIT PROVIDES A UNIQUE BREAKOUT SPACE, COMPLETE WITH PRESENTATION & COMMUNICATION FACILITIES.

QBISM

COLLABORATE IN COMFORT

Good seating design shouldn't be hard.

So you'll get a pleasant surprise when you take a seat in the qb Meet house. The segmented screen levels come with cushioned upholstery that adapts to the curvature of your spine. Collaborative meetings can take time, especially if you are inventing the next 'big thing', so you want to be comfortable, efficient & focused. qbMeet makes working spaces more comfortable, keeping people together for longer, whilst taking some of the hard work out of getting things done.

Below:

LEATHER UPHOLSTERY WITH A VENEERED, VISION SLATWALL OPENS UP THE WALL FEATURE TO MAKE IT INTERACT WITH YOUR ENVIRONMENT. THE OPTIONAL D END SOFA ENHANCES IT FURTHER.

Above:

A DOUBLE-SIDED CURVED QB UNIT MAXIMISES THE USEABILITY OF A SPACE WITHOUT WASTE. GROUP WORKING IS A JOY IN THIS UNIT.

Below:

HIGH VOLUME TRAFFIC AREAS NEED A ROBUST UNIT THAT DOESN'T WEAR OVER TIME. QB UNITS ARE DESIGNED FOR MODERN LIFE, FAST AND HECTIC – TRANSFORMED TO PRIVATE & QUIET.

QBISM

LET A LITTLE LIGHT IN

*Finding some quiet and calm
in the midst of an open office
environment can be critical to
the overall success of the day.*

With the qb system, tall screens shield and protect you from the noise and busyness, whilst the glazed or open segments let the light and air surround you. This intelligent solution enables a more open and playful approach whilst affording you the privacy you crave to get the job done. Unique glazed and acrylic sections let the light in whilst allowing you to keep your head down.

STEPPED AND CONTRASTING UPHOLSTERY MAKE ANY SPACE ENVI-
ING TO USE. PROMOTE ENERGY & VITALITY WITH VIBRANT COLOURS
AND SHAPES. INTEGRATED NOTICE BOARDS ARE INCLUDED TOO.

QBISM

MODULES THAT MOVE WITH YOU

Textured, smooth, reflective, mirrored.

The shapes and surfaces and curves of qb Meet come in all kinds of colours and finishes. Colours that lift the environment, set the tone and alter people's moods for the better. You can turn corners, change heights, change your mind and fully embrace a modular unit that adapts to your needs. qb moves with you, and as technology advances so should your investment. Interchangeable panels make it easy to update the fabric, colour, finish or style. Add in power sockets, screens and the latest advancement in communications. The aluminium frame prevents the fabric from bagging, keeping the system in tip-top shape for longer.

QBISM

FIND YOUR LEVEL

Mix it up. Make it open. Make it private, higher or lower.

Each unit comes in one of three levels, each creating a different feel and quality of privacy, available in Silver, Black or White. The Level 1 option has a seat height of 1000mm, just enough to designate your space but give you some quiet. Level 2 and Level 3 take the feeling of privacy further and you can combine these options with unique features and finishes to create bespoke looking units that cater for your every need.

This page:
THE LOW LEVEL CURVED UNITS OFFER PRIVATE, LUXURY SEATING AREAS.

TAILOURED EXTRAS

Clockwise from top right

1) Level 1 table:

A shaped table that attaches to Level 1

2) Level 3 shelf:

A 350mm shelf that attaches to Level 1, 2 or 3

3) Free-standing table:

A 800mm Diameter table 720mm high

4) Armrest:

Upholstered Armrest 110mm wide

5) Armrest with Table:

Upholstered Armrest with 350mm diameter twist table

6) Power & Data:

Up to 6 sockets in length

Installed in:

Aluminium

Panel

Armrest

7) LED Lights:

Can be installed in canopy or link post

8) Slatwall:

Standard slatwall to allow monitor arm, accessory and hot-box attachment

TECHNICALLY SPEAKING

System

Structural framework; Aluminium alloy, 6063-T6

Aluminium Finish options:

/ Epoxy powder coated

Colour option: White or Aluminium

/ Rigid PVC post to post connectors

Colour option: Black PVC (can customise upon request)

/ Sprung steel panel clips

/ Leveller Components

Zinc Plated 12 gauge CRS sheet metal components

(40mm adjustment)

Panel Construction:

Solid Wall Panels are 100mm thick with Clip on/off decorative panels giving an internal void of 72mm which is filled with sound absorbing acoustic foam. Electrics can be channelled from the floor or ceiling via the connecting posts or behind the removeable panels, giving continuous cable management access. It is possible to route ducting, plumbing, pipework, electrical and data cables and can house flat screen monitors within the body of the wall panels, panels are factory built, delivered to site and simply clip together with an acoustic seal between. Graphic imagery can be positioned on the wall panels.

Rigi connection - corner posts.

Aluminium connections

/ 2-way 90 degree

/ 3-way 90 degree

/ 4-way 90 degree

/ 2-way 45 degree

90 degree Acrylic soft corners

Ceiling Options:

Ecophon Focus DS concealed suspended ceiling tested according to EN ISO354.

Electrical

Plug and Play Electrical Wiring loop

Lighting and airflow systems run on a 220-230V mains supply and are protected by a residual-current circuit breaker (RCCB).

Power and data modules are fitted in the wall panels and in aluminium extrusions in positions to suit the customer's requirements.

Lights

qb systems use energy efficient LED light fittings. All lighting schemes are designed to specific customer requirements.

/Standard Light fittings:

/ Halers 60 degree beam angle 7.9W down light

- 75,000 hours LED lamp life

Our Design engineers can advise on a suitable lighting solution that complies with CIBSE recommendations. Other light fittings can be considered when calculating the optimum lighting schemes, including pendant lights, wall lights and client-specified lights.

Warranty

A 5 year warranty covers all structural elements of qb® and is subject to normal conditions of use and care. this warranty includes all integral fixings and fittings and is only available if the qb® unit has been installed or re-installed by a qb® approved installer.

Environmental

	Recyclability %	Recycled %
Glass Wall	100	30
Acrylic Wall	100	0
Acoustic Foam Baffle (P/Panel)	100	0
Fabric Wall (P/Panel)	100	100
Aluminium	100	90

THE FINISH LINE

Interior designers, specifiers and architects take note.

Any solid panel can be changed, in situ, in a little more time than it takes for you to change your mind. But rather than telling you what's available, it's quicker to show you. Below are some of the international brands we work and collaborate with, to make your job of choosing that little bit more enjoyable.

That said, we can incorporate just about any solid substrate you choose.

So, over to you - we love a challenge!

Decorative Cladding finishes

- Solid Wall Panel.

/ Veneered tiles (water based finishes, UV cured, Veneer edging all round)

/ Fabric Wrap. Most fabrics can be used although predominantly Camira, Kvadrat, Gabriel and Bradbury

/ Vinyl Papers from the Muraspec range

/ Painted Finish

/ Whiteboards (dry wipe and magnetic)

/ Back painted glass

/ MFC tiles - colour as required
(PVC edging all round)

/ Tackable sub straight

/ Other finishes available upon request

Glazed panels are framed with anodised (or painted) architecturally engineered aluminium frame. Toughened glass and other decorative materials are supported within.

Decorative Cladding finishes

- Visible Framed Panel.

/ 6mm and 10mm toughened safety glass
(toughened to EN12150)

/ Double glazed (2 x 6mm)

/ Double glazed with integral blinds

/ 5mm Acrylic

/ Veneered tiles

/ Fabric Wrap. Most fabrics can be used although predominantly Camira, Kvadrat, Gabriel and Bradbury

/ Vinyl Papers from the Muraspec range

/ Painted Finish

/ Whiteboards (dry wipe and magnetic)

/ Back painted glass

/ MFC tiles - colour as required
(PVC edging all round)

/ Tackable sub straight with fabric wrap

/ Custom finishes available upon request
